About

I'm an InsurTech and insurance industry board member, advisor, and former technology/innovation executive. I bring insurance industry, corporate governance, C-level, and technology expertise to the boards I serve on and my advisory clients.

Corporate board roles:

- OWIT Global, Series A InsurTech company (current)
- Mindaro, seed-stage InsurTech company (previous)
- TechCanary, seed-stage, insurance SaaS/Salesforce solution provider (previous)

- Accolite Digital, PE owned provider of digital transformation services (current)
- MyCOI, Series A provider of digital certificates of insurance (current)

Nonprofit leadership:

- Member, Board of Trustees, Western New England University (previous)
- Board Member, ACORD, insurance value chain industry association (previous)
- Advisor, NCCI, workers comp data & analytics industry association (previous)

I have 25+ years of technology and innovation leadership experience with US and global, large-cap and mid-cap insurance providers:

- The Hanover Insurance Group (NYSE: THG)
- Chubb Insurance (NYSE: CB)
- Royal & SunAlliance Insurance Group (LSE: RSA)

Most recently, I was EVP & Chief Technology Innovation Officer at the Hanover Insurance Group, a \$5 billion, mid-cap U.S. firm. I led a \$400+ million technology modernization program that aligned our systems with our market valuation strategy, enabled us to beat 5-year financial goals, and prepared us for a hybrid future-of-work.

In addition, I worked closely with the Hanover's Board and its Audit Committee and made regular Investor Day, institutional investor, and analyst presentations.

Prior to the Hanover, I was at Chubb, a Zurich-headquartered, \$20 billion, large-cap insurance provider with operations in 54 countries. I held progressive leadership roles as SVP & Chief Information Officer (CIO) of its International, Commercial Insurance, and Specialty Insurance Divisions. Before Chubb, I was VP & CIO, Specialty Insurance at RSA.
